

## **CV: BRIEFING**

PKMN [pac-man] is an architecture office and collective based in Madrid [Spain] since 2006.

We do research into technology-typology-construction (applied to consolidated urban contexts, local memory and contemporary cultures); simultaneously we love exploring new architectural fields connecting citizens, identity, pedagogy, communication, game, action and cities, specially throughout strategies of participation, mediation and social innovation, and experimental active learning process.

We're fulfilled diverse projects in Spain such as New Teruel Market Square, Oficina Gratuita de Arquitectura, European, Innopia, El Madrileño del Año, Plan Extinción or Museo MASJ in Alcázar de San Juan.

We develop an action and pedagogical workline called "City creates City" dealing with Spanish Universities, portuguese, mexican and argentinian, such as La Coruña, Sevilla, UCJC Madrid, Chihuahua, México DF, Buenos Aires, cities as Cáceres, Toledo, Mérida or Burgos and companies as Fagor or AENA.

We've taken part in exhibitions such as XIII Bienal Buenos Aires, EME3 (CCCB-BCN), Archivo de Creadores (Matadero), FreshMadrid & FreshLatino (COAM, I.Cervantes), AlNorte2010 o Post-post-post, and our work is been published by Mark, Pasajes, AV, Metalocus, El País, El Economista, Arquine, European, Fundación Arquia, Future, and other media.
